Yearly examinations conducted twice a year help us to appraise and ensure the quality of education of each student. Our purposeful curricular and extra-curricular activities have triggered the quest of people towards moral education by now and made HADIA moral schools more popular among them.

# The Changing Face of Madrasa Education

There are thousands of Madrasas or Sharia colleges operating in different parts of the country, where millions of students are currently attaining their education. Overcoming its limitations and introducing state-of-the-art ideas and techniques there will save a lot of energy that is being wasted. Above all, it will ensure the standard of education and the bright future of students. We have devised plans, through Madrasa Empowerment Programs, to creatively engage with such institutions' existing curricula and improve them to their ideal form.
